PROFESSIONAL SUMMARY

Software Developer & Cybersecurity Specialist with hands-on experience in back-end web development, Python/Django ecosystems, and threat analysis. Skilled in building scalable applications, implementing robust security protocols, and developing intuitive user interfaces (Streamlit, HTML/CSS). Proven ability to deliver technical solutions—from climate profiling platforms to secure authentication systems—while applying strong digital forensic and network threat mitigation principles.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, SQL, HTML5, CSS3
- **Frameworks & Libraries:** Django, REST APIs, Streamlit, Bootstrap
- **Cybersecurity & Networking:** Threat Intelligence, Network Forensics, Vulnerability Assessment, Ransomware Mitigation, Ethical Disclosure
- **Tools & Databases:** Git, GitHub, PostgreSQL, SQLite, Linux/Bash, Wire shark

PROJECTS & HIGHLIGHTS

Climate Profiling & Analytics Web Application | *Lead Developer*

- Developed an interactive data visualization platform using **Streamlit** and **Python** to profile climate patterns.
- Designed a streamlined UI/UX flow to simplify complex technical data stacks for non-technical stakeholders.
- Managed version control and codebase architecture via Git/GitHub.

Healthcare Technology Solution | *HACKFEST '26 Hackathon Finalist*

- Conceptualized and pitched an integrated digital health system focused on data privacy and workflow efficiency.
- Authored system architecture specifications emphasizing secure patient data handling and compliance.

Secure User Management & Authentication System | *Personal Project*

- Architected a **Django** web application featuring user registration, custom authentication flows, and dynamic role-based access.
- Implemented security best practices to prevent common web vulnerabilities (XSS, CSRF, SQL Injection).

EDUCATION & CERTIFICATIONS

Diploma / Degree in Cybersecurity & Information Technology

Kaiboi Technical Training Institute | 2026

Professional Certifications:

- **Certificate in Cybersecurity** | KENYA INCLUSITIVITY IN TECH INITIATIVE (KITI - UON), 2026
- **Web Development** | EMOBILIS TRAINING INSTITUTE - 2025

KEY COMPETENCIES

- **Problem Solving & Debugging:** Fast learner with a structured approach to troubleshooting back-end systems and network bottlenecks.
- **Collaborative Communication:** Experienced in presenting technical concepts to cross-functional teams and stakeholders.
- **Security-First Development:** Dedicated to writing secure, maintainable code from the ground up.
